

INDUSTRIAL VALVES

www.derval.it

COMPANY PROFILE

Derval is a leading manufacturer of valves for Oil, Gas, and Power Generation industries.

The main products include Gate Valves, Globe Valves, Check Valves, Dual Plate & Strainers, forged and cast steel materials.

Our product range starts from 1/2" and extends to 48" valves with pressure ratings ASME Class 150Lbs. to 2500Lbs. and UNI EN/DIN PN 6 to PN 100.

The highest quality and variety of used materials can satisfy all the requirements of the Chemical, Petrochemical and Power Plants, Oil and Gas, Off-Shore & On-Shore, Refining, Ship Building, Water Treatment & Energy Generation.

Thanks to sophisticated stock control constantly monitored, we guarantee the optimum level of a stock ready to ship at any times. The top quality of our supplies, and the specific experience and knowledge that we reached over the time, combined with our service reliability, have significantly contributed to the success of Derval. In fact, today we are in the Vendor-List of the most important engineering companies.

Our continuous investment in developing a new technology gives Derval the ability to offer always high-quality valves. A complete service quality, capable staff, high level of computerization, warehouses suited for the varieties and quantities required by the market, are only a few of the aspects that lead DERVAL's customers to recognize its unquestionable leadership in "Global Service".

Our aim is the continuous improvement of all Derval's products and services, through teamwork, training and performance, involving all aspects of the business process. Derval Steel Valves are not only characterized by outstanding performance, reliability and quality: they're also known for their standard features, which are normally optional in other brands.

If you wish to receive any further information about Derval's valve program or about our complete production program, please don't hesitate to contact our sales department.

GATE VALVE

Bolted Bonnet or Pressure Seal
Flanged or Butt Welding ends
Outside Screw & Yoke (OS&Y)

Size: 1.1/2" to 24"
Class: ASME 150 to 1500 Lbs.

Size: DN 50 to DN 600
(DIN EN) PN 16 to PN 40

GLOBE VALVE

Bolted Bonnet or Pressure Seal
Flanged or Butt Welding ends
Outside Screw & Yoke (OS&Y)

Size: 1.1/2" to 16"
Class: ASME 150 to 1500 Lbs.

Size: DN 15 to DN 400
(DIN EN) PN 16 to PN 40

CHECK VALVE

Swing or Dual Plate type
Bolted Cover or Pressure Seal
Flanged or Butt Welding ends

Size: 1.1/2" to 24"
Class: ASME 150 to 1500 Lbs.

Y STRAINER

Bolted Cover
Flanged or Butt Welding ends

Size: 2" to 12"
Class: ASME 150 to 1500 Lbs.

Size: DN 15 to DN 400
(DIN EN) PN 16 to PN 40

FORGED STEEL VALVES

GATE VALVE

Bolted or Welded Bonnet
Threaded, Socket Weld, Butt Welding, Flanged ends
Outside Screw & Yoke (OS&Y)

Size: 1/2" to 2"
Class: ASME 150 to 1500 Lbs.

GLOBE VALVE

Bolted or Welded Bonnet
Threaded, Socket Weld, Butt Welding, Flanged ends
Outside Screw & Yoke (OS&Y)

Size: 1/2" to 2"
Class: ASME 150 to 1500 Lbs.

CHECK VALVE

Bolted or Welded Cover
Threaded, Socket Weld, Butt Welding, Flanged ends
Outside Screw & Yoke (OS&Y)

Size: 1/2" to 2"
Class: ASME 150 to 1500 Lbs.

Y STRAINER

Screwed or Bolted Cover
Threaded, Socket Weld, Butt Welding, Flanged ends

Size: 1/2" to 2"
Class: ASME 150 to 1500 Lbs.

QUALITY & CERTIFICATIONS

Derval operates a fully certified Quality Management System according to UNI EN ISO 9001 and Environmental Management System according to UNI EN ISO 14001. All major suppliers are fully certified as well, to meet the most severe international standards of Quality and Performance.

Each valve is in accordance to the relevant API, ASME, UNI, EN, ISO, NACE, DIN and BSi standard and it's furnished with certificates according to the relevant standards and specifications.

Our Steel Valves are designed, manufactured and tested in strict conformance to API 600, ASME B16.34, API 598, and other recognized standards. All materials are certified to UNI EN 10204 3.1 as standard.

All Derval Valves are in compliance with European Pressure Directive (PED) 2014/68/EU as standard and meet the safety requirements of the ATEX Directive 2014/34/EU.
